What's New

MSI announces S271 super flagship model to provide the finest performance from the Dual Core.

MSI today announced the first-in-the-world and best dual core solution, the sensational MSI S271 notebook. This notebook is accessorized with AMD's most powerful X2 dual core, Turion™ 64 X2 Dual Core Platform processor, becoming the best candidate as the best notebook. This brand new MSI S271 comes with a durable and elegant Al-Mg alloy case, high definition Super Glare Type 12" WXGA LCD, embedded ATI UMA graphic interface, and Digital Surround Sound, as well as some top notch features including MSI's Dual CoreCell, 802.11b/g and BlueTooth 2.0 wireless communication. All these features are stored in a compact body, only 2 cm in thickness and less than 2 kgs in weight. In short, MSI S271 is all you have dreamed for. [<More...>](#)

Dual CoreCell, the Ultimate Solution for Dual Core Platform MSI Takes the Lead to Deliver the AM2 Motherboards

MSI showed the latest AM2 motherboards for this event. The all new motherboards are operated by the new Socket AM2 AMD Athlon 64 processors with DDR2-1000 memories to deliver the best performance and computing, declaring the entry to DDR2 new age on AMD platform. MSI has put a lot of effort on the new AM2 motherboards, to make sure they are working with the new processors and DDR2 modules to provide a stable and outstanding new platform![<More...>](#)

476 MSI Dual CoreCell @Computex Taipei 2006 MSI introduced its innovative Dual CoreCell technology, which focus on the 4 "P"s - Performance Precision, Silence Precision, Image Precision...

At the MSI booth E133/136/171/ 174 in Hall 2, MSI has teamed up with a variety of partners, including AMD and Intel, enabling visitors to experience the power and advanced capabilities of MSI products, including notebooks, mini-systems, wireless devices, servers, consumer electronics, motherboards, and graphic cards. Computex provides an amazing opportunity for MSI to demonstrate how innovative technologies have made a huge impact on MSI's major products. The main theme of MSI's exhibition this year is "MSI - The Expert in Dual-Core Platform", and there will be a "Dual CoreCell" showcase located in the central area to demonstrate the Dual CoreCell technology. During Computex, MSI booth visitors will learn more about the four user benefits contributed from this innovative technology, including 4" P"s - Performance Precision, Silence Precision, Image Precision, and Sound Precision.
